Cost of Good Roads.

Let me give a few figures as to the cost of

good roads. I will take, for the sake of con-

venience, a county which represents a fair

average of all the counties of the State as

about 230 miles of such highways, which, if

properly built of stone, would make

its country districts a veritable para-

dise. Considering that an excel-

\$5,000 a mile, the aggregate cost for the en-tire 230 miles would be \$1,150,000. The

average amount of property for each

county, as shown by the tax duplicate for

1891. was \$19,934,070. Were this tax of

\$1,150,000 to be paid at once it would neces-

sitate an assessment of 6 7/10 per cent., or

\$67 on every \$1,000 worth of property as re-

turned for taxation. Now, dividing this

into ten equal payments, the annual tax

which the property-owner would pay on every \$1,000 of assessed valuation would be \$6.70. But it is to be noted

that this does not represent just so

much extra tax. In 1891 the taxes levied in Ohio for road and bridge purposes were

within a few thousand of \$3,000,000, and

total tax of the State for road "patch

work" for one year about \$4,000,000, or \$2.20

for every \$1,000 of assessed valuation.

Thus the cost for the transition from tem-

road can be built for

THE BOND MARKET.

Railroad Issues Quiet with Inactive Ones on the Decline.

At New York, yesterday, money on call was easy at 1@2 per cent., the last loan being made at 1 per cent., closing offered at 2 per cent. Prime mercantile paper, 24@44 per

Sterling exchange was quiet and easier at \$4.87 for sixty-day vills and \$4.884 for

demand. Sales were 200,8'5, including the following: Atchison, 14,000; Chicago Gas, 14,000; Northern Pacific preferred, 30,600; New England, 6,700; Reading, 6,800; Richmond & West Point, 4,200; St. Paul, 23,600; Union

Pacific, 6,100. The stock market was not as strong as yesterday, but in the face of evident realization of the local contingent to secure the profits already accrued on the late rise, prices were firm and in a few cases decidealy strong. The most important movement in the market was probably the activity and advance in Northern Pacific preferred, though the grangers were still the most prominent group, and the dealings in them command more attention from speculators than those in any other stocks. The opening was made on a moderate volume of business, but the strength of Tuesday was lacking and the local operators took profits on the advances already accrned, creating a fractional set-back, which, however, disappeared under the stimulus of the continued new buying. In Burlington and Lackswanna the liquidation was sufficient to drive the stock down. The market finally closed dull, but steady and firm, generally With only slight changes for the day.
Railroad bonds were very quiet, and displayed no marked temper, while many of

A Democratic Acknowledgment

Philadelphia Record. The formal personal notification of a presidential candidate of his nomination has come to a pleasant ceremonial, in which little more than a flattering exchange of courtesies is attempted. The key-notes of the campaign are sounded later on in the nominee's letter of acceptance. Yet Mr. Harrison's reply to the committee was couched in modest and patriotic phrases, and will commend him anew to the sensible voters of his party. There can be no doubt that the full Republican vote will be cast for

Corn Was the Active Cereal Caused by a Spon taneous Rush of Shorts to Cover When Little of the Desirable Was for Sale.

TRADING AT CHICAGO.

Oats and Provisions Felt the 5tim ulus and Quickly Strengthened. CHICAGO. June 22.-Wheat trade was only moderate, with prices averaging higher. The opening was a shade lower, and advanced 1%c for July and %c for deferred futures, then eased off 42%c, but again advanced irregularly, roling very strong. and the closing was %c higher than yesterday. There was nothing special in the market.

Corn was fairly active most of the day, a good general trading taking place within a 142@1%c limit. The feeling developed was a continuation of that which prevailed yesterday, and still further advance was recorded. The advance in wheat the continued poor gradof present arrivals, together with an improved cash demand helped the price and caused some nnessiness on the part of shorts, who, when they tried to cover found little for sale. Initial trades were at about the final quotations of yes-terday and under the urgent demand gradually sold np 118@138c, reacted 38@12c, railied 38@34c and at the close July had gained 1% @140 and September 14 @1%c. In oats there was a larger trade, a very firm feeling due, to an increased demand and also to sympathy with wheat and corn. The market closed very firm at the top figures with a gain of 14@14c. Trading in provisions was light and prices ruled steady. The market improved and closed at the outside figures. The

Smythe, grand secretary of the Masonic orders in Indiana, has brought to the notice not only of the Masons, but of the general public, the course pursued by the Central Traffic Association towards benevolent organizations. The Western Association of Writers has had a like experience in its efforts to procure a fair reduction of rates on the occasion of its annual meetings. Last year, at Warsaw, eighty-one members of our association came to that place bearing certificates of the Central Traffic Association, properly stamped. All of these certificates, except four, stated in their own terms that they were to secure to the holders a return ticket at one-third the regular fare - this on the condition that fifty holders of such certificates should be in attendance. The other four certificates had been issued only a week or two before our convention, and substituted the words "one hundred" for "fifty." After we had received assurance that the reduced rate would be granted on the usual conditions, that is, for fifty persons or more, the rule was changed and made retroactive so as to cover and contradict the printed certificates of the company. On top of this I was notified, only a short time before the convention, that no reduction would be grapted unless I should advance to an agent of the company a bonus of \$6 a day, plds \$5 arbitrary fee "for sleep-ing-ear accommodations," etc. Rather than permit our association to suffer, I advanced the money. We had a hundred and thirty members in attendance at the convention. The agent came, enjoyed his stipend for two or three days and went away, refusing to honor our cet. tificates. This year a like exaction has

been attempted, and has led to the inser-tion of the following in our general circu-The executive committee regrets to announce that no general reduction of railway fare has been secured. This payment is in the nature of a bonus without value received. Bixty Years a Voter. To the Editor of the Indianapolis Journal I have read Col. Dick Thompson's speech at Minneapolis, in which he said he cast his first vote for President for Henry Clay in 1832. At that time I cast my first vote, for Henry Clay. We did not know anything of Whig and Democrat; it was Clay and Jackson men. In 1836, when Gen. W. H. Harrison and Van Buren ran for President, it was then Whig and Democrat. I voted for every Whig President and for every Republican candidate. I shall not
